WELCOME TO VERSATILE KAMADO COOKING

Your new Kamado Quickchange Gas Insert completes your existing Vision Grills Kamado, allowing you to sear, grill, bake, and smoke all types of food with your choice of Charcoal or Gas.

For those times you want to quickly prepare a meal without the use of charcoal, you have the Quickchange Gas Insert to help you. Simply pull out the removable Ash Drawer and slide in the Gas Insert, position the Heat Exchanger, and fire it up!

Welcome to the newest innovation for versatile Kamado cooking! Before beginning, make sure to read the following Manual completely for instructions on operating with GAS.

SAFETY INFORMATION

PLEASE READ THE ENTIRE MANUAL BEFORE OPERATING YOUR VISION GRILLS KAMADO GRILL. PLEASE KEEP THIS MANUAL FOR FUTURE REFERENCE.

ATTENTION! Use caution when cooking as grill surfaces get hot. To avoid burns, always use protective gloves to adjust top and bottom vents when grill is in use. Do not wear loose clothing near the grill.

ATTENTION! This barbecue will become very hot; do not move it during operation. For outdoor cooking use only. Do not operate grill indoors or in an enclosed space. Use grill only in well ventilated area around the grill, free from combustible materials. Allow for at least 3 feet/1 meter of clearance around grill (house, other outdoor products, hanging tree limbs, shrubs, etc.).

WARNING! Keep children and pets away from the grill at all times. Do not allow children to operate grill. Never leave grill unattended when in use.

Grill needs to be placed securely on a level base prior to use. Only operate grill on a hard, stable level surface (concrete patio, ground, etc.) capable of supporting the grill’s weight when loaded with food. Never operate grill on wood support surface, wood deck or similar combustible support surfaces under any conditions. Never attempt to move grill when it is in operation or cooling down. Never operate this grill within 25 feet/7.5 meters of any flammable liquid. Never operate this grill within 10 feet/3 meters of a gas cylinder. The grill should not be placed under combustible structures, such as garage, porch, patio, or carport. Burning charcoal or propane gives off carbon monoxide, which has no odor and can cause death.

The use of alcohol, prescription or non-prescription drugs may impair the operator’s ability to properly assemble or safely operate the grill. Do not use on boats or recreational vehicles.

CAUTION: Never use lighter fluid, gasoline, or other volatiles to start your charcoal, as they are dangerous and leave a residual taste in your food. Use only firelighters complying to EN 1860-3. Use utmost care when adding charcoal to grill. Electric start-up is recommended. Dispose of cooled ashes by placing them in aluminum foil, soaking with water and discarding in a non-combustible container.

When operating with gas, top vent MUST be open at all times, see instructions.
**SET UP**

**Step 1: Install Gas Caddy to Grill Cart**
- Place the Gas Tank Caddy between the rear legs of the grill cart (Step 1a).
- Fasten mounting brackets to cart by removing nut and bolt from each bracket, separating the top bracket piece from Gas Tank Caddy frame.

**Step 1b**
- Slide Gas Tank Caddy under Cart, so top bracket piece rests on cart frame and is lined up with bolt hole on bottom of Gas Tank Caddy.
- Reinsert bolt into frame and tighten together with nut (Step 1b).
- Use the provided wrench to tighten all connections.

**Step 2: Attach Hose Brackets**
- Attach the two hose brackets (used to hold gas hose), with eyelets facing in, onto the front and rear legs of cart (Step 2).
- Put the gas tank on the Gas Tank Caddy and tighten into place using Gas Tank Caddy knob (Step 3a).

**Step 3: Install Gas Tank**
- From rear of the grill, feed gas hose through eyelets of the hose brackets, grill connector first. Connect gas hose to the Gas Insert using the Quick Disconnect fitting.
- Make sure the cylinder valve is closed (turn valve clockwise until tight).
- Inspect valve connections, port, hose and regulator assembly for any damage or debris. Remove any debris.

**Step 3b**
- When connecting regulator assembly to the valve, hand tighten the quick coupling nut clockwise to a complete stop.
- After the gas hose is connected to the gas tank and Gas Insert, open valve on gas tanks and perform some type of leak test* method to test the connection.

**Step 4: Install Battery**
- Remove Ignition Button Cap by turning counter clockwise. Insert AA battery (not included) negative end first.
- Replace Ignition Button Cap by tightening clockwise.
- Press Red Ignition Button and hold in to test battery. This will create spark on burner that will start your grill. (See STARTING SECTION for starting operation).

**WARNING**

Always wait for grill to completely cool before opening built-in ash drawer.

When charcoal cooking above 500° F/260° C, with both top and bottom vents closed, rapidly opening the lid creates a sudden rush of oxygen into the grill, which can cause a flare-up of flames. When in this cooking mode, we recommend that, prior to opening the lid, you open both top and bottom vents to allow oxygen to stabilize inside the grill, minimizing the possibility of flare-ups.

**MAINTENANCE & TROUBLESHOOTING**

1) After grill has cooled, use a soft cloth to clean exterior of grill.
2) Clean the cooking grates before and after cooking.
   Note: Remove surface dust and grease.
3) Infrared Heat-Exchanger should be clean prior to each use:
   a) Check for debris in the heat exchanger.
   b) If debris is present, please remove it with a stiff brush.
4) Clean Side Shelves with mild detergent.
5) When grill is cooled, use grill cover to prolong life of grill.
6) Clean Side Shelves with mild detergent.

**Manual Ignition (Match Ignition) Method of Operation**

1. Put match in the ignition tool as shown.
2. Light match, insert inside the front right opening as shown.
3. Slide match to the inside back of the Gas Insert, reaching the burner. (Rear Side View shown)
4. Turn the knob to Low and press it down until it is lit.
   *If ignition does not occur within 5 seconds, turn the Control Knob to OFF position. Wait 5 minutes and repeat the lighting procedure.
5. Light the gas and observe flame within the Heat Exchanger.

**WARNING: To avoid shock, do not touch spark on burner.**
**STARTING**

ATTENTION: The grill needs to be cooled before switching from the Ash Drawer to the Quickchange Gas Insert.

**Step 1: Fully Open Top Vent**
Turn Top Vent to position 3 (or SEAR). Keep the Top Vent fully open.

**WARNING:** When using Quickchange Gas Insert, Top Vent must be open to position 3 (or SEAR) at all times.

**Step 2: Remove Ash Drawer**
Remove Cooking Grates and Charcoal Grate. Sweep all excess charcoal and ash into Ash Drawer. Pull out Ash Drawer and empty ash from drawer, then store in a cool, dry place.

**Step 3: Insert Gas Insert**
Slide Gas Insert into grill opening in the base of the grill until it stops and locks into place.

**Step 4: Position Heat Exchanger**
Install the stainless steel infrared Heat Exchanger on top of the Gas Insert. Allow the 2 bottom stems of Heat Exchanger to drop into the slots on top of the Gas Insert.

**Step 5: Place Heat Diffuser Lava Stone**
Spread bracket so it makes an “X” shape and lower onto fire bowl, allowing the bracket to rest on edge of bowl. Lower Lava Stone onto the bracket. Replace cooking grates with hinged sections facing towards the front of grill.

**Step 6: Connect to Gas Tank**
Using the Quick Connect fitting on the Gas Supply Hose, pull back spring-loaded locking ring and slide over male connection. Once it has snapped into place, give slight tug on gas line to ensure that it is securely connected. Turn the valve on gas tank to Open position.

**Step 7: Ignite Gas Insert**
Use leak test* to ensure there are no leaks. Open grill lid. Confirm the Control Knob is in the “OFF” position. Press and hold in the Red Ignition Button. Device will emit a “clicking” sound. While holding in Red Ignition Button push in control knob and turn to LOW setting. Observe fire is lit in Heat Exchanger. Close grill lid and observe grill thermometer. Adjust to desired temperature by adjusting Control Knob. **NOTE:** In order to get to “HIGH”, push the Control Knob in and turn counter-clockwise until second “click” is heard and the tick mark is completely horizontal.

*If ignition does not occur within 5 seconds, turn the Control Knob to OFF position. Wait 5 minutes and repeat the lighting procedure.*

**SETTING TEMPERATURE**

**Lock Top Vent**
Turn Cast Iron Top Vent to position 3 (SEAR on Color Coded Models). Turn locking pin counter clockwise until it drops down in place, keeping the Top Vent fully open.

**WARNING:** When using Quickchange Gas Insert, Top Vent must be locked open to position 3 (SEAR on Color Coded Models) at all times.

The Quickchange cooking temperatures are controlled by adjusting the burner knob on the Gas Insert. Cooking times and temperatures will vary depending on your geographic location.

*Caution – If you’re cooking low and slow, do not let the grill get too hot. Keep the temperature low, it will take time to cool down.

*Caution – Continuous grilling at high temperatures will cause the felt gasket to burn.

**Prevent Flare-Ups:**
If the lid is lifted too quickly, oxygen will rush inside the grill causing a flare-up. To prevent a flare up, lift the lid 1” / 25mm and count to three before fully opening the grill.

---

**COOKING TEMPERATURE**

All cooking times and temperatures are approximate. Visit www.foodsafety.gov for additional information on safe minimum cooking temperatures.

---

**LEAK TEST:**
Pour leak test solution (not included) or soapy water at the connection spot of the gas cylinder to check whether there is air leakage. If solution produces bubbles this means there is a leak.

<tr>
<th><strong>2. Warranty</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>Subject to the following terms and conditions, Phase 2, LLC, d/b/a Vision Grills (“Vision Grills”) warrants to the original purchaser that the grill insert manufactured and supplied by Vision Grills will be free from defects in material and workmanship under normal use for the following periods from the original date of purchase: Five years for burner and all other metal parts; 90 days for lava stone &amp; bracket, quick disconnect, hose and regulator. This Warranty is contingent upon purchaser registering the product at <a href="http://www.visiongrills.com/register">www.visiongrills.com/register</a> or within 30 days from the date of purchase along with a copy of the original dated sales receipt which can be attached in an electronic format (i.e. scan, photograph, etc.) to your registration at <a href="http://www.visiongrills.com/register">www.visiongrills.com/register</a>. Failure to do so will invalidate the warranty. Any damages or defects which occur at any time of purchase must be noted on the original dated sales receipt. This Warranty is not transferable to subsequent owners. If you cannot register online, it will be necessary to contact Vision Grills customer service at (877) 917-4273 or email <a href="mailto:help@visiongrills.com">help@visiongrills.com</a>.</td>
</tr>
<tr>
<td>If any product covered by this Warranty is defective due to a covered warranty condition, such condition product will be repaired or replaced at the option of Vision Grills under this Warranty. Vision Grills is not liable for any default or delay in its performance under this Warranty as caused by any circumstances beyond its control. While Vision Grills uses rust-resistant materials, the Warranty as to metals parts does not cover rust or oxidation unless the structural integrity of the grill insert is compromised as determined by Vision Grills.</td>
</tr>
<tr>
<td>This Warranty does not cover purchases with unauthorized resellers and/or third parties. Warranty coverage is limited to products purchased at an authorized reseller only.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th><strong>3. Maintenance</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>1) This outdoor cooking gas appliance, including special surfaces, with recommended cleaning agents, if necessary.</td>
</tr>
<tr>
